

Sustainable Agriculture Matching Grant Program

Proposal Tips and Tricks

The Hens for Haiti (H4H) matching grant program is highly competitive. In order to help your organization's proposal make it to the top of the list, below are some questions to consider when completing your application.

Make sure to include:

- Name of organization.
- Location of organization's mission in Haiti.
- Organization's past involvement and success of projects in Haiti.
- Full budget for the project as well as details on where grant money will be spent.
- Value and designated purpose of match component.

Other tips:

- Organize your proposal into headings to help the reader understand what is being asked.
- Photos are helpful but not required.
- Include a link to organization's website, if applicable.
- How will this project empower the Haitian people and/or local community?
- How will your project impact the community or improve local services not currently offered?
- What attributes make your project unique?
- What are the names and qualifications of key individuals implementing the project?
- How does your project plan to partner with other organizations and current projects within the target community?
